#### **ICT Mastery Booklet**

# Y9 ICT

Pre Production and Planning Documents for iMedia projects

#### Use this booklet to revise key concepts

### Key word and learning summary

#### Mood board

#### Summary:

- are a visual tool
- all about the "mood" of the project
- produced in the design stage
- show how a project might "look" or "feel" and give ideas for the experience users might
- help to make decisions about content and look of products

#### Notes

A mood board is a **pre-production document**. They are made during the **planning stage** of a product's development.

They are a **visual tool** used as a way of exploring the **theme** of a project and how it might **look** and **feel**.

#### **Purposes:**

- develop visual ideas for how a project might look or feel
- let <u>designers</u> share ideas about the look or feel of a project
- to show the **client** how a project might look or feel
- show ideas for colour schemes to the <u>client</u> and <u>project team</u>
- share ideas about fonts that could be used
- collect ideas for part of a project

(Possible audiences for mood boards are underlined above)

Mood boards are **not** perfectly organised. They should be ideas "thrown" at the board

They are visual tools

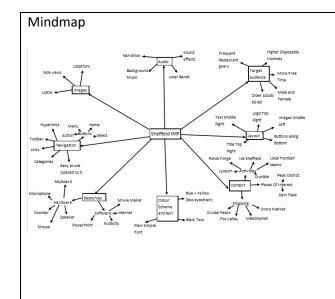

Mood boards might include

- colours
- font samples
- images/photos/pictures or sketches
- keywords or quotes
- logos
- titles
- textures (eg fabrics) on a physical mood board

\_

Mood boards can be physical or digital A physical product is something you can create on paper or touch – produced on paper by sticking images or samples, or a pinboard with postits

A digital product in something produced directly on the computer – produced on paper and scanning in using a scanner or photographed using a digital camera. Or produced using software such as PowerPoint, graphics packages such as Photoshop or online website tools

A Mind Map is an easy way to brainstorm thoughts organically without worrying about order and structure. It allows you to visually structure your ideas. It is a highly effective way of getting information in and out of your brain – it literally 'maps out' your ideas. A Mind Map is a diagram for representing tasks, words, concepts, or items linked to and arranged around a central concept or subject (central node). They have a structure that branches out from the centre and use lines, symbols, words and colour to grow ideas.

Mind maps should contain:

- A central idea/ theme
- Nodes / sub nodes
- Branches / sub branches

Mind maps can be visual and include images

## **Questions**

2. Make on the timeline below with an 'X' at what stage in a project is it most suitable to create a mood board [1 mark]

3. Identify 4 components of a mood board [4 marks]

1.	3.
2.	4.

4. Study the mood board below. Discuss its suitability for use to plan the creation of an advertisement poster for a new coffee shop opening [6 marks] 5. Describe the purpose of a mind map [2 marks] 6. Make on the timeline below with an 'X' at what stage in a project is it most suitable to create a mind map [1 mark]

3.

4.

7. Identify 4 components of a mind map[4 marks]

2.

8.	A new fitness club is opening in Sheffield just in time for the new year January 2nd, with
	everyone's new years resolutions. You have been asked to create a poster to advertise the opening of the new fitness club. In the space below, create a mind map for the poster [8 marks]
