Policy development:

This policy has been developed by building on our own best practice and that of other educational networks. It has been developed in consultation with governors, parents, staff and students and is accessible through the Forge Valley website.

We have carefully considered and analysed the impact of this policy on equality and the possible implications for pupils with protected characteristics, as part of our commitment to meet the Public Sector Equality Duty (PSED) requirement to have due regard to the need to eliminate discrimination, advance equality of opportunity and foster good relations.

1. Purpose of the Plan

The purpose of this plan is to show how Forge Valley School is able to meet the needs of pupils, staff, parents and visitors regardless of disability.

2. Definition of Disability

A person has a disability if he or she has a physical or mental impairment which has a substantial and long-term adverse effect on his or her ability to carry out normal day- to -day activities.

3. Legal Background

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”. According to the Equality Act 2010 a person has a disability if:

(a) He or she has a physical or mental impairment, and

(b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

This plan sets out the proposals of the Governing Body of the school to ensure access to education for disabled pupils in the three areas required by the planning duties in the Equality Act:

- increasing the extent to which disabled pupils can participate in the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after school clubs, leisure and cultural activities or school visits)
- improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services (this includes improvements to the physical environment of the school and physical aids to access education)
- improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled. (This will include planning to make written information that is normally provided by schools to its pupils available to disabled pupils. Examples might include handouts, timetables, textbooks and information about school events. The information should take account of the pupils` disabilities and the preferred format of pupils and parents and be made available within a reasonable timeframe)

Forge Valley School aims to treat all stakeholders, including pupils, prospective pupils, staff, governors and other members of the school community favourably and, wherever possible, takes reasonable steps to avoid placing anyone at a substantial disadvantage. The school aims to work closely with disabled pupils, their families and any relevant outside agencies in order to remove or minimise any potential barriers to learning, which puts them at a disadvantage, but allows them to learn, achieve and participate fully in school life. The school is active in promoting positive attitudes to disabled people in the school and in planning to increase access to education for all disabled pupils.

As part of the school’s continued communication with parents, carers and other stakeholders we continually look at ways to improve accessibility through data collection, questionnaires and parental discussions.

4. Contextual Information

The school is a three-storey building, with a lift, which has disabled facilities and toilets – it is a modern building and designed to meet with current legislation. Wheelchair access is available into the main building and into all other buildings. There is disabled parking on site. All areas of the school grounds are accessible to wheelchair users, although some areas of the playing fields will require adult supervision for wheelchair users. At present we have one student using a wheelchair.

5. The Current Range of Disabilities within Forge Valley School

The school has pupils and staff with a range of disabilities which include moderate and specific learning difficulties. When pupils enter school with specific disabilities, the school contacts the LA professionals for assessments, support and guidance for the school and parents.

We have a number of pupils who have asthma and/or diabetes and all staff are aware of these pupils. Medication is kept either with the pupil or centrally within the First Aid room.

We have competent First Aiders and Paediatric who hold current First Aid certificates. All medication is kept in a central safe and secure place which has easy access for First Aiders and staff members. Administration of Medicines consent forms are filled in by parents outlining the illness and amount and time of medication. All medication that is given is recorded.
